#### **DETAILED ACTION**

# Response to Arguments

Applicant's arguments with respect to claim 1 have been considered but are moot in view of the new ground(s) of rejection.

## Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Cripe et al. The pair of spaced apart magnetically responsive operators is readable on elements 42 and 44. Element 44 is readable on the bar. The coil on the bar is readable on element 46.

### Allowable Subject Matter

Claims 3-7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 2 and 17-36 are allowed.

#### Election/Restrictions

Claims 8-16 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made without traverse in the reply filed on May 13, 2003 in Paper No. 10.

Art Unit: 3753
